streaming and chat systems

WINDOWS 10/11

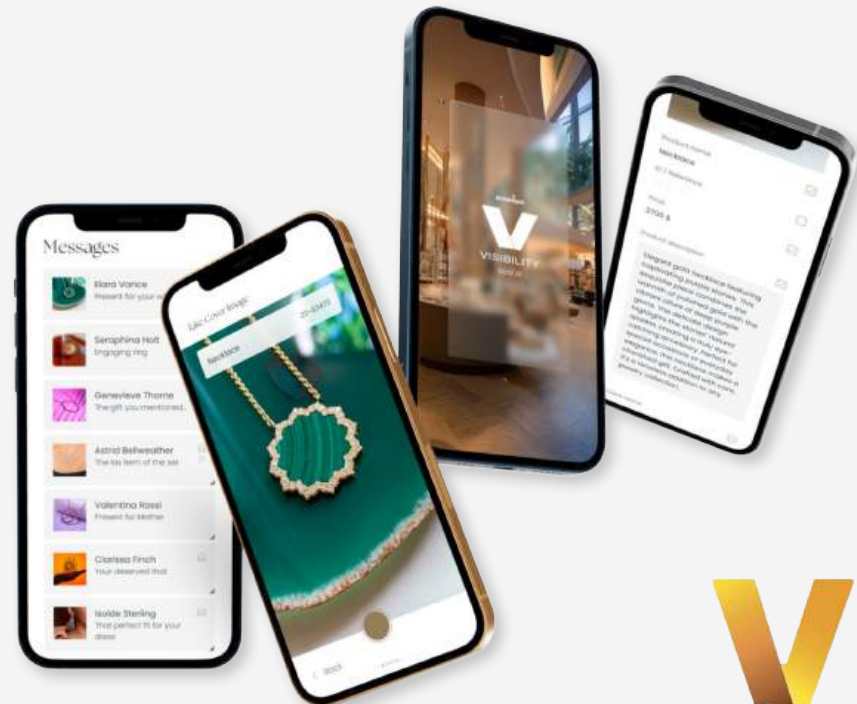

SaaS (license per Visiodome, unlimited users)

Transform your sales and customer service associates into Brand Ambassadors to boost omnichannel sales. Co-developed by **accenture**

Visibility is a web-based mobile application that revolutionizes how you connect with customers. Designed to enhance sales and brand engagement, it enables sales associates and customer service teams to build trust, deliver high-quality content remotely, and provide a seamless, personalized experience—unlocking a new omnichannel sales opportunity.

Welcome to the fantastic world of Ryf AG! We have been fully committed to microscopy since 1965 and leave nothing to be desired. As a family business, we have grown steadily and have developed into an absolute market leader in microscopy and optical measuring systems. Our guiding principle 'The best solution for you' is our constant companion. We think and act independently, solution-orientated and, above all, long-term, so that our customers and partners receive the best solutions. We offer a comprehensive service so that our customers receive a perfectly customised, fully assembled and maintained product. Training and advice are also among our strengths. In short, we are the perfect partner for anyone looking for the highest standards.
